

SOUTH DAKOTA SCHOOL OF MINES AND TECHNOLOGY

Policy Manual

SUBJECT: Network Security Policy

NUMBER: Policy 8-14 (formerly Policy VIII-05-3)

REVISED: August 2022

POLICY

South Dakota Mines ITS will use hardware and software tools to actively detect and block unauthorized access to Mines computing and networking systems as well as attempts to compromise systems connected to Mines network.

PURPOSE

To reduce the likelihood that Mines computing and networked system will be attacked and compromised from sources inside and outside the campus network.

SCOPE

This policy applies to all computing and networking systems controlled or managed by the Mines ITS department.
